
Mechanical design engineers (m/f)

Danieli is a global supplier of equipment and physical plants to the metal industry company which has produced and exported top level technology and innovation worldwide for more than 100 years. The company is based in Buttrio, in the north-east of Italy. It is one of the world leaders in the production of steel plant with more than 25 divisions worldwide (design, manufacturing and service centers).

We are looking for mechanical engineers for our worldwide structure. **Positions are based in our offices in Belgrade.**

The designers we are looking for should have the following characteristics:

- High School Diploma of mechanical or mechatronic technician issued by a Technical School or Master/Bachelor's Degree in mechanics or mechatronics issued from an University
- Work experience in the mechanical field (mechanical workshop, steel plant...) or experience in the technical offices (if in mechanical field, any technology, will be an advantage);
- **Fresh graduate Master degree mechanical or mechatronic engineers are best welcome**

Contract type will be a full-time permanent contract.

Good command of English (written and spoken) is a must, Italian would be an advantage.

Knowledge of AutoDesk products is a plus.

Driving license, active driver.
